

Lower power cost Better Services for Labasa

The Na Vualiku Project, in partnership with Labasa Town Council, is exploring rooftop solar for selected civic buildings.

Clean Energy
Use renewable energy with no significant environmental impacts expected

Lower Energy Costs
Reduce electricity spending over time

Better Services
Free up funds for essential services and facility improvements

Cost Efficiency
Reduce ongoing costs and improve long-term financial sustainability

If suitable, rooftop solar systems may be installed from late 2026.
